Fit My Face

take a picture

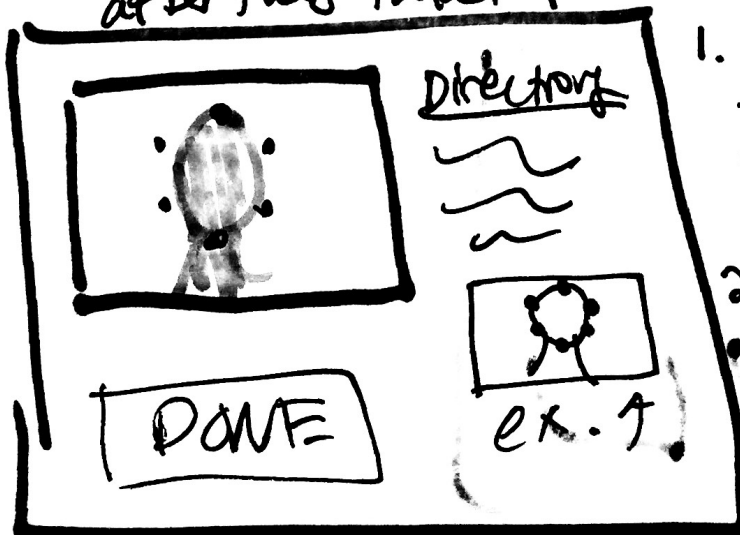

upload photo

TAKE A PICTURE SCREEN

1. put your hair back
2. make sure your whole face is in the photo

after they take/upload

1. place a dot at the top of your forehead and the point of your chin
2. place two dots at the edge of your face aligned with your mouth
3. place the last two dots at the edge of your face aligned with

After it calculates shape

SQUARE FACE

your face shape
is primarily square,
because blah blah
math

my agent
